

**U.S. DEPARTMENT OF ENERGY
PUBLIC MEETING ON STANDARDS FOR
RESIDENTIAL FURNACES AND BOILERS**

**U.S. Department of Energy
Ronald Reagan Building and International Trade Center
Polaris Room
1300 Pennsylvania Avenue, NW
Washington, DC 20004
September 29, 2004**

Purpose

The Department will present its methodology for the Advance Notice of Proposed Rulemaking (ANOPR) analysis and example results. The Department also will explain its plans for the remaining analysis—the analysis to support the Notice of Proposed Rulemaking—and will seek input from stakeholders on its planned methodologies, assumptions, and data sources.

Agenda

9:00-9:05 am	Welcome
9:05-9:15 am	Introduction and Agenda Review <i>Doug Brookman</i>
9:15-9:30 am	Rulemaking Overview <i>Mohammed Khan</i> This is an overview of the analyses in the rulemaking, the tools DOE uses to generate results for each analysis, and the issues on which DOE would like input during today's meeting.
9:30-10:00 am	Comments from Participants This is an open forum for participants to make a brief summary statement and/or identify their key issues regarding the ANOPR analyses, methods, and data.
10:00-10:30 am	Engineering Analysis <i>Graham Stevens and Alex Lekov</i> This is a summary presentation and discussion regarding the approach used and factors considered for the market and technology assessment, screening analysis, and engineering analysis, and a characterization of the results.

10:30-10:45 am	Break
10:45-11:30 am	Engineering Analysis Continued
11:30 am-12:00 pm	Life-Cycle Cost Analysis <i>Jim Lutz</i> This is a summary presentation and discussion regarding the approach used and factors considered for the life-cycle cost analysis, energy use, markups, and payback period analysis, and a characterization of the results.
12:00-1:00 pm	Lunch (on your own)
1:00-1:45 pm	Life-Cycle Cost Analysis Continued
1:45-2:45 pm	National Impact Analysis <i>Alex Lekov</i> This is a summary presentation and discussion of issues regarding the approach used and factors considered for the national energy savings, net present value, and shipments analysis, and a characterization of the results.
2:45-3:15 pm	Discussion of Other Issues This is an open forum to discuss any remaining questions or issues identified by participants.
3:15-3:30 pm	Break
3:30-4:30 pm	NOPR Analyses and Next Steps <i>Jim McMahon, Mike Rivest and Mohammed Khan</i> This is a summary presentation and discussion of issues regarding the planned revisions to the ANOPR analyses, and the planned approach and factors that will be considered for the manufacturer, utility, employment, and regulatory impact analyses, and the environmental assessment.
4:30-5:00 pm	Final Discussions This is an opportunity to discuss any remaining issues.
5:00 pm	Adjourn
